PROFILE SUMMARY

- Dedicated and detail-oriented Cardiovascular Technology Intern at KMC Mangalore with extensive experience in diagnostic and interventional cardiology. Proficient in assisting with angiograms and angioplasties in the cath lab, as well as performing echocardiograms in emergency settings to assess patients presenting with chest pain and breathlessness for timely diagnosis of myocardial infarction. Experienced in conducting echocardiograms in ICU setups and managing all echocardiographic procedures for OPD and ICU patients in the district government hospital. Actively assists in advanced cardiac procedures and has a keen interest in cardiac electrophysiological studies, 3D mapping, and pacemaker implantation. Committed to ensuring accurate diagnosis and life-saving interventions through precision, efficiency, and patient-centered care.
