Bhiwani, Haryana

Objective

Dedicated and compassionate healthcare practitioner eager to apply a comprehensive clinical background and a patient-focused approach to deliver outstanding care in a progressive medical environment. Keen to employ my robust diagnostic skills, cooperative nature, and commitment to medical innovation to enhance patient health outcomes and propel the evolution of healthcare practices.

Work

2022-2023

Experience

Medical assistant (intern)
Rural medical College, Loni

Duties handled:

- **Vital Signs Assessment & Case Preparation:** Diligently measured patients' vital signs and meticulously prepared case papers, providing critical support for physicians' diagnostic processes.
- **Medical Documentation & Sample Collection:** Systematically documented patients' medical histories and collaborated with the nursing team to collect blood and urine samples, ensuring their safe handling and timely dispatch to the pathology lab.
- **Health Monitoring & Database Management:** Accurately recorded patients' blood pressure, pulse, body temperature, medical history, and current medications, contributing to the maintenance of an up-to-date health database.
- **Administrative Support & Patient Coordination:** Engaged with the administrative department to manage patient scheduling, database entry of medical information, and issuance of follow-up reminders, enhancing patient care continuity.
- **Surgical Assistance & Alternative Medicine Exposure:** Aided in various orthopedic surgeries and gained valuable experience in Ayurvedic treatment methods.
- **Emergency Response & Health Centre Support:** Played a key role in handling medical emergencies within the health center, demonstrating composure and readiness in critical situations.
- **Addiction Support & Research Contribution:** Actively participated in the tobacco research cessation cell department, offering compassionate care and support to patients struggling with addiction issues.
- **Pre-Employment Medical Screening:** Conducted thorough medical examinations for pre-employment assessments, ensuring candidates met health standards.
