Career Objective:

- To work with the challenging assignments for achieving goals of organization that will also enhance my knowledge, abilities, and growth.

Work Experience (Total Experience: 3 April 2024 to 20 January 2025):

- Worked with **Akums Drugs & Pharmaceutical Ltd. (Plant 3rd) Haridwar**

Work Profile:

- Performed **Line Clearance activities** before and during manufacturing and packing operations to ensure the area, equipment, documents, materials, labels, and previous batch remnants were properly cleared and verified as per approved SOPs and GMP requirements.
- Performed **Batch Documentation review and verification**, including BMR/BPR and associated manufacturing and packing records, to ensure that all entries were complete, accurate, traceable, properly recorded, and compliant with approved procedures and GMP requirements.
- Performed **Raw Material Verification** before dispensing and manufacturing activities by checking material identity, item code, batch/lot number, quantity, status labels, expiry/retest date, storage conditions, and relevant documentation against approved requirements.
- Performed **Terminal Inspection** of finished products and packaging components to verify product quality, appearance, packaging integrity, coding, labeling, quantity, and overall compliance with approved specifications prior to batch release.
- Conducted **AQL (Acceptable Quality Limit) inspection** of finished and packed products by following approved sampling plans and inspection procedures, ensuring compliance with established quality standards and identifying defects or discrepancies.
- Ensured implementation of **ALCOA+ principles** in GMP documentation, maintaining data integrity by ensuring records were Attributable, Legible, Contemporaneous, Original, Accurate, Complete, Consistent, Enduring, and Available.
- Performed and monitored **In-Process Quality Checks (IPQC)** at different stages of manufacturing and packing, including physical and process-related parameters, to ensure that products consistently met predefined specifications and quality requirements.
- Coordinated with **Production, Quality Control, Warehouse, and other cross-functional departments** to ensure smooth execution of manufacturing activities, timely

completion of quality checks, proper documentation, and compliance with GMP requirements.

- Participated in the identification, reporting, and investigation of **deviations, discrepancies, and quality-related observations**, supporting root cause analysis and implementation of appropriate corrective and preventive actions (CAPA).
- Ensured that manufacturing and packing operations were carried out in accordance with **GMP, GDP, approved SOPs, specifications, and established quality standards**, with a strong focus on product quality, patient safety, and data integrity.
