

SWAPNIL NIDVANCHE

MD ANESTHESIA AND CRITICAL CARE

Mobile: 6303535394

Email:

swapnilnidvanche123@gmail.com

Location: Rohtak, 124001

PROFESSIONAL PROFILE

MD in Anesthesia and Critical Care with clinical experience in ICU care and perioperative anesthesia. Experienced in managing critically ill patients, airway management, mechanical ventilation, hemodynamic monitoring, sedation, pain management and regional anesthesia. Focused on structured clinical assessment, timely decision-making and evidence-based patient care.

CORE CLINICAL COMPETENCIES

Anesthesia	General, regional and local anesthesia; perioperative assessment; airway management
Critical Care	ICU patient management; ventilation support; hemodynamic monitoring; emergency response
Procedural Skills	Airway procedures; CVP/central venous access; tracheostomy; ultrasound-guided POCUS
Analgesia & Sedation	Acute pain management; sedation assessment and titration; opioid-related monitoring
Clinical Practice	Clinical decision-making; patient monitoring; multidisciplinary collaboration

PROFESSIONAL EXPERIENCE

Resident Doctor

Oct 2023 – Aug 2026

PGIMS, Rohtak

- Participated in management of critically ill patients in the ICU, including airway management, ventilation and hemodynamic monitoring.
- Worked with senior anesthesiologists and intensivists in anesthesia care and critical care procedures.

Consultant Doctor

Mar 2021 – Sep 2023

Abhiman Emergency Hospital, Kothagudem

- Led critical care management for ICU patients with focus on ventilatory and hemodynamic support.
- Monitored and adjusted sedation levels according to comfort and neurological assessment requirements.

Junior Resident

Nov 2020 – Oct 2021

Osmania Medical College, Hyderabad

- Worked with senior anesthesiologists and critical care specialists in anesthesia and critical care procedures.

EDUCATION

MD Anesthesia and Critical Care

Oct 2023 – Aug 2025

PGIMS, Rohtak

MBBS

Nov 2015 – Jul 2020

Semey Medical University, Semey

CLINICAL & PROCEDURAL EXPERTISE

Airway & Respiratory Care

- Airway assessment and management
- Intubation and tracheostomy-related care
- Ventilation support and monitoring
- Critical care respiratory management

Hemodynamics & ICU Care

- Hemodynamic monitoring and optimization
- Management of critically ill ICU patients
- Emergency response and stabilization
- Sedation and neurological assessment

Anesthesia Practice

- General, regional and local anesthesia
- Perioperative patient assessment
- Regional anesthesia techniques
- Postoperative pain management

Ultrasound & Procedures

- USG-guided POCUS
- CVP / central venous access
- Tracheostomy care and related airway procedures

SELECTED CLINICAL STRENGTHS

- Management of critically ill patients requiring ventilatory and hemodynamic support.
- Experience with ICU patient monitoring, sedation management and emergency response.
- Hands-on exposure to general, regional and local anesthesia in surgical settings.
- Application of structured clinical assessment and evidence-based decision-making.
- Collaboration with anesthesiology, critical care and multidisciplinary teams.

CLINICAL EXPOSURE & PROCEDURAL VOLUME

The source CV reports management of **500+ ICU patients** and participation in **1000+ surgical procedures**, including general, regional and local anesthesia exposure.

ACADEMIC & RESEARCH PROFILE

Academic work has included clinical research and publication activity in anesthesia and critical care-related areas. The source CV lists publications/articles associated with the Indian Journal of Anaesthesia (IJA), International Journal of Science and Research (IJSR), and Saudi Journal of Anesthesia.

Academic focus	Anesthesia • Critical Care • Perioperative analgesia • ICU management
Research activity	Published multiple articles as listed in the source CV

CERTIFICATIONS & COURSES

Fellowship in Diabetes Mellitus

Specialized training in pathophysiology and management of diabetes mellitus

Aug 2022

Online Course: Basics of Regional Anesthesia

Online continuing education

Completed

PROFESSIONAL APPROACH

Committed to safe anesthesia practice, high-quality critical care, careful patient monitoring and effective communication within multidisciplinary teams. Interested in delivering evidence-based, patient-centered perioperative and ICU care.

ACHIEVEMENTS

- **1st Prize – NZ-ISACON 2026 Quiz**
- Recognized with first prize in the NZ-ISACON 2026 quiz.

PUBLICATIONS / ARTICLES

The source CV states that multiple articles were published and lists the following journal venues:

- Indian Journal of Anaesthesia (IJA)
- International Journal of Science and Research (IJSR)
- Saudi Journal of Anesthesia

Individual article titles, authorship position, DOI and publication dates were not specified in the source CV.
